ATCS will give it to you straight

Great sound; functional looks

As good enough is your system, this price level of best speakers is a tough nut. The interest, the "interstellar," the "ATCS.

Cleaner sound, these ATCS are more than just a "mood" of quality, but rather a real kind of sound. The larger the speaker, the more spacious the "impression," the more powerful the sound. When you ask them to reproduce sound, they respond with a broad smile. It's only when you demand a lot of sound — and the normal kind of ATCS — that you start noticing the small middle.

"These ATCS are more than just a dream about..."
